Order for Compliance	Regulation	Date to be corrected	Date corrected
11(c)(ii) The qualifications and training requirements for administrators and educators are as follows: (c) at a full-time or part-time early learning and childcare centre, (ii) on and after July 1, 2020, (A) at least 50% of educators must hold a one-year Early Childhood Education Certificate or training that is equivalent in the opinion of the Minister, and (B) an administrator must hold a one-year Early Childhood Education Certificate or training that is equivalent in the opinion of the Minister.	11(c)(ii)	Jun 18, 2027	
Comments: During the inspection, the inspector observes that only 5 out of 6 educators hold a one-year certificate in Early Childhood Education. The regulations require that 50% of the educators possess this certificate or an equivalency recognized by the Minister. One educator is currently enrolled in the one-year Early Childhood Education course. The administrator must submit a plan to her Quality Assurance Monitor explaining how she intends to reach the 50% requirement.			
39(2) A licensed facility shall have a separate storage space under lock and key that is inaccessible to the children for each of the following: (b) medications.	39(2)(b)	Nov 10, 2026	Nov 10, 2026
Comments: The inspector observed that the medication lockbox was unlocked, with the key left in the lock inside a cupboard that was out of reach of the children. A discussion is being held with the administrator regarding the proper storage of medication. All medication must be kept in a locked container and always secured under lock and key. Deficiency is now compliant.			

General Comments

The inspector is on site to conduct the renewal inspection.

During the inspection, the inspector observed the morning snack, lunch period, rest period, afternoon snack and outdoor play in the afternoon.

A discussion is being held with the administrator regarding outdoor play. The children did not go outside in the morning because it was pictured day. The administrator explained that each group of children took turns having their photographs taken. The administrator told the inspector that they always go outside for 1 hour in the morning and 1 hour in the afternoon when the weather permits it.

The inspector observed children in one classroom engaged in a variety of table activities, including building

General Comments
blocks, colouring, and puzzles. In another classroom, children are engaged in dramatic play hair salon station, with an educator seated at the children's level and actively participating in the play experience. The inspector observed that in one of the diapers changing area the diaper changing procedure is not posted. Diaper changing procedures must be posted in a visible place in the diaper changing area. The inspector informed the administrator who posted the procedure. A discussion is held with the educators regarding children's personal belongings. The inspector reminded that all personal items, including water bottles, must be clearly labelled with the child's name. The ratio is respected throughout the inspection.
