General Comments

Monitoring Inspection:

Children and educators observed engaged in a variety of activities both indoors and outdoors this morning including open ended art, music and movement, digging and dumping, exploring the gross motor equipment and mark making with chalk. A small group of children were observed eating snack on the front porch on a blanket.

Purposeful planning is evident through documentation displayed within each indoor play area that supports the children's current interests and learning experiences.

QA Monitor discussed with administrators that the pea gravel is to be raked regularly under blue slides to ensure surfacing is adequate within the fall zones.

Daily attendance records are accurate and reflect all children present.
Child-to-staff ratio was observed to be met during Monitoring Inspection.
New staff file (4) review was completed, all required documents are in place.
Handwashing routines observed before snack and during washroom routines.
