Name of Early Learning and Childcare Licensing Staff Joanne Voyer Page		Position Title Quality Assurance Monitor	
Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments
<p>Upon arrival for a monitoring visit, children were just arriving from school. This facility picks up children from school and drives them to the centre. When children arrived they are directed to put their belongings away in their cubby and to wash hands before sitting down to eat lunch. 19 children were observed present on the day of my visit. This is a busy group. It is important to ensure children wash hands at all prescribed times, not just upon entry to centre. Please review PH regulations appendix 38, section 3.2 for prescribed times to be washing hands and also for the prevention of disease. The Administrator stated they are very vigilant about washing hands at designating times before moving onto different activities. This is a good practice.</p> <p>I reviewed Administrative records and staff records and this is being tracked appropriately.</p> <p>The Administrator stated today children will be indoors. They plan to set up the mats and play hockey in the back programming room. There will also be a variety of other games for children to play; then children will eat snack and continue on with afternoon of activities. I observed the rubber mats stored in the corridor and the Administrator told me they set up the mats daily as the back room is used outside operating hours for another venue that rents the space in the evenings.</p> <p>The administrator advised, the outside courts will be shut down for the winter. The outdoor/wooded area/gazebo will continue to be used for outdoor activities. On full days - PD, school closures etc, weather permitting, the operator will access O'dell park on these days.</p> <p>Staff were observed engaged, supervising children during lunch, interacting with children and speaking to children kindly. I did observe some children wash hands before moving onto afternoon activities.</p>
