39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies;	39(2)(a)	Mar 30, 2022	Mar 30, 2022
Comments: Deficiency is now compliant			

General Comments
<p>Monitoring visit performed. One compliance to address during my visit. Toxic products must be stored locked. Today during my visit I observed toxic products under the sink in the lunch room. The Operator stores toxic cleaning products in the storage room locked however if you plan to keep some products for cleaning under the sink, please put a lock on this door. Thank you. I brought this to the administrator's attention and she addressed this during my visit.</p> <p>Upon arrival children were divided into 2 groups. One group had just finished a tag activity and the other group were playing indoor hockey.</p> <p>Administrative records were reviewed and attendance is being tracked daily. Please be sure to document departures as a few children had left. Fire drills are also being documented and practiced monthly. Good timing. I also reviewed new staff information. Appropriate child guidance observed and staff provided assistance when needed.</p> <p>Children were observed eating snack and will be carrying on with afternoon activities.</p>
