Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments
<p>When licencing staff arrived the children were finishing lunch and getting ready for outdoor play time. Staff and children's files were reviewed. The staff files were in proper order. A few of the children's files were missing information. Administrator stated she would contact parents so the files could be updated. The children spent most of the afternoon outside. They were involved in various activities such as playing hockey, sliding, making trails through the forested next to the center. The facility was recently painted and the operator was in the process of organizing the parent board so it would be put back on the wall. The operator was able to show me the required documents needed for the parent and advised the parent board would be reposted shortly.</p> <p>Facility is clean and organized and educators interact well with the school age children.</p>
