Order for Compliance	Regulation	Date to be corrected	Date corrected
30(3) An operator shall maintain the indoor play area of a licensed facility to ensure the safety of the children.	30(3)	Nov 23, 2022	
Comments: As per discussed with the Administrator and due to safety, the register covers in the studio need fixed and the microwave needs to be stored on a shelf or stand. The operator indicated that he will be purchasing a cart for this and will address the registers. Please advise when this has been completed.			
33(3) An operator of a licensed facility shall complete a monthly review and maintenance plan on all stationary equipment that includes the following information: (a) the review and repair dates; (b) the action required and the action taken; and (c) the name of the staff member who conducted the review.	33(3)	Nov 09, 2022	Nov 09, 2022
Comments: Deficiency is now compliant. the operator stated he will create a checklist that is applicable to the outdoor area. Licensing staff is aware that during winter the outdoor gym area is closed during this season. During these months indicate maintenance not applicable.			

<p>General Comments</p> <p>Monitoring visit performed.</p> <p>Upon arrival, staff and children were arriving after being picked up from school. Only a half day on Wednesdays. Once children entered the facility, they proceeded to put personal belongings in their cubby area and get their lunch packs, wash hands and go to the studio to eat lunch. Children are obviously familiar with the routine, with the Administrators gentle reminder. The Operator moved children's lunch area to the studio commencing in September. This is a much better solution with tables and benches to eat in one location. After eating, children were observed playing cards, playing a game on a tablet, and other table top games. Children were playing either in groups or by themselves.</p> <p>Transitioning time from lunch to after noon activities is appropriate. The Administrator provided lots of notice that they would be moving outdoors to play basketball, hockey or to play in the wooded area.</p> <p>Administrative records were reviewed - staff and children attendance is being tracked and Fire drills are being performed (good timing observed). As per stated above the Operator will create an outdoor checklist to address any maintenance to the outdoor play area.</p> <p>A couple of safety concerns to address to the indoor play area as indicated above.</p> <p>Appropriate child guidance was observed. Administrator observed giving gentle reminders, and able to anticipate children's needs and able to distract potential problems.</p>
