30(3) An operator shall maintain the indoor play area of a licensed facility to ensure the safety of the children.	30(3)	Apr 26, 2023	
Comments: Licensing staff noticed the register in the lunch room needs repaired. The Administrator advised this just happened and she advised the Operator about this. Please email a picture of it once it is repaired.			

<p>General Comments</p> <p>Monitoring visit performed.</p> <p>Some children eating lunch and other children that had finished their lunch were enjoying some quiet time playing games with their friends. Educators were observed seated and eating with children during lunch. Children were provided lots of time to eat.</p> <p>Educators kindly reminded children regarding the Wednesday routine, that before going outdoors, they must put lunch bags in cubby, wash hands, put on outdoor shoes, and get dressed for outside play. Educators recommended wearing jackets for the weather today as it was cool.</p> <p>Administrative records were reviewed and attendance for both staff and children are completed. Fire drills are up to date (awesome times), cleaning is being documented, and new staff info was reviewed.</p> <p>Licensing staff noticed a few of the staff files only had the First Aid sheet issue date, not the Certificate. Please get a copy of the First Aid certificate and place in those staff files of the staff that were on site today.</p> <p>Any staff that turn 19 must have the Vulnerable Sector check completed after their birthday and if they do not have a First Aid certificate, they cannot be left alone with the children at any time.</p> <p>Only one compliance to address as noted above.</p> <p>All children were observed in outdoor play during the inspection visit. They were playing hockey, ball, and in the wooded area. Supervision was appropriate and staff spread themselves out to ensure children remain in their sight. A third staff left to pick up children from the school during the visit.</p>
