Name of Early Learning and Childcare Licensing Staff Laura Casey		Position Title Inspector	
Order for Compliance	Regulation	Date to be corrected	Date corrected

<p>General Comments</p> <p>Upon my arrival, the children were getting ready to go outdoors. During the transition, Educators were observed providing positive child guidance and assisting with problem solving between friends.</p> <p>Once outside, the children were observed playing ball hockey, dodge ball, catch, and in the wooded area to the side of the yard. The wooded area is marked with orange paint and the children were observed respecting the boundaries. Educators were actively engaged in conversation and play with the children and maintained clear lines of sight throughout the outdoor play area.</p> <p>Later in the afternoon, the children came indoors, changed their outdoor shoes, hung up their coats and washed their hands. After hand washing, the children had snack together in the large room and played together on their electronics. Educators stated that they only allow electronics on Wednesday afternoons during lunch and snack time.</p> <p>Child and staff files were in order and required documentation was present or provided. As a reminder, please post the contact information of your Inspector/Investigator on your parent board and as a precaution, it is recommended to keep your maintenance door locked. This is not a requirement but a precautionary measure as there were no toxics in the maintenance room but a hot water heater and electrical panels/equipment. Also, during my inspection it was noted that an Educator did not have their completed First Aid Course Certificate in their file although proof of enrollment was provided. Please provide a copy of the Certificate once complete.</p> <p>The facility is clean, organized, tidy, and indoor/outdoor material is in good condition. Licensing staff recommends for renewal.</p>
