<p>General Comments</p> <p>Licensing Staff arrived at the facility to conduct a Monitoring Inspection. Upon arrival, two Educators were inside the facility waiting for the children to arrive. As the children arrived, personal belongings were hung up, indoor shoes were put on and hands were washed. Children who wanted to have afternoon snack were observed sitting in the front room eating while the other children prepared to go outside.</p> <p>Outside, a large storage unit with play materials was observed near the back of the parking lot. One Educator was observed taking children over to the unit to grab whatever play material they wanted. Some children chose to get footballs, hockey gear, sticks and nets. Other children were observed playing rounds of hide and seek in the wooded area. The Educators were engaged in the activities and were well spread out during outdoor play time to ensure proper supervision was maintained. Families were greeted as the children left at end of day and attendance records were updated.</p> <p>Only positive child guidance was observed during today's Monitoring Inspection. The Educators were engaged and attentive to the needs of the children. The Educators were observed communicating with each other regarding the plan for the afternoon and how many children were in each group. A binder with Reportable Incident Reports was reviewed. The forms are being completed properly.</p>
