Order for Compliance	Regulation	Date to be corrected	Date corrected

### General Comments

A monitoring inspection occurred today, January 23, 2025.  
Upon arrival by the Inspector the children were observed engaged in a variety of interest centers throughout the learning environment.  
A "special" visitor "a diver" came to visit the children today and explained to them what he did, how far under water he could go and that he sees sharks sometimes. The children were observed very excited to ask questions and to try on the diving mask.  
Children's learning is documented and displayed throughout the room with books added to each learning center to enhance the areas.  
Morning snack and handwashing was also observed.  
New staff file was verified complete, and ratio was observed being respected during the entire inspection.  
Educators were observed tending to the needs of the children using positive child guidance techniques.
