Comments: Deficiency is now compliant			

General Comments
<p>On the day of my visit I was properly screened upon entry. The centre is back to normal and they are no longer required to bubble. There were 5 children present and they were doing science experiments for messy week. They had a variety of messy experiments such as vinegar and baking soda in balloons, they made soap, glow in the dark glitter jars, and crystals etc. This afternoon they will be having a paint fight outside.</p> <p>The centre looks much cleaner and a lot more organized. The parent board is up to date and all compliances have been met.</p>
