General Comments

Upon Licensing Staff arrival, the children were indoors playing in main room as well as the art room. In the main room, stations of material were set up and children were observed playing with Barbies, dolls and accessories, dominos, Lego, sensory toys, and a cozy corner with pillows and soft material. In the art room, children were colouring and drawing. Educators in both rooms were actively engaged with the children and positive words of encouragement were heard. Later in the afternoon, a 5 minute clean up time was given by Educators. The children cleaned up the stations and prepared to go outdoors to play.

Once outside, Educators set up large orange pylons as boundary markers and permitter safety check was observed. Outdoor play material such as skipping ropes, a large checkers board and a mud kitchen with scoops and dishes were in good condition. Educators were actively engaged in conversation and play with the children and there was ample natural shade from the adjacent wooded area. Water bottles as well as the attendance sheet and first aid backpack were taken outdoors. As a reminder, please ensure that EpiPens are easily accessible at all times.

During inspection, child and staff files were verified. The parent board in the main entry area was clearly visible and contained required licensing documentation. Monthly fire drills and outdoor maintenance checks are being completed.

Licensing staff recommends for renewal.
