<p>General Comments</p> <p>It was a rainy morning on the day of my monitoring visit. The Ready for School Four Year Old Programs practiced their graduation songs. Staff and children are very excited for this upcoming event! Educators displayed lots of patience as children got organized for their practice with their props.</p> <p>The children are learning about the life cycle of butterflies and have cocoons in the room. There was documentation displayed that connected with this interest.</p> <p>In the three year-old room, children were finishing up a story and preparing to do a handprint craft. Children then got to release some energy after the craft and were jumping and leaping on the large pillow in the room. This room has a visual timer that has a red circle that decreases as the time goes by. This helps with transitions and time warnings. The educator set this 5 minutes before it was time to clean up for lunchtime.</p> <p>All educators during my visit were engaged, patient and kind. The educators also show lots of team work and communication which contributes to the facility and programs running smoothly.</p>
