Children were observed hanging up their belongings, washing their hands, filling up their water bottles, and then heading outside to play. While outside, children were observed playing catch, sliding, climbing on the equipment, and playing on the monkey bars. Classrooms were observed prior to the children's arrival. K-2 Classroom - several learning centers were observed. A conversation was had with administrator regarding these centers and how these centers could become more defined. The grade 3-5 room had several well-defined learning centers - dramatic play, building and transportation, arts and crafts, loose parts, science, and a cozy reading area. Several forms of documentation were observed in both rooms.</p>
