Part-time Early Learning and Child Care Centre	45	SCHOOL-AGE
ELCC Licensing Staff	**Position Title**	
Cathleen LeBlanc	Quality Assurance Monitor	

Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

A Monitoring Inspection was conducted this morning. The school aged children were spending a full day at the school aged program, due to a Professional Development Day. Children were observed outside, playing on the play equipment. Educators stated that the children are interested in Lego, building with cardboard, bracelet making, play doh, and arts and crafts, especially cutting and gluing. Large room – several well-defined learning & play centres were observed – reading, building, arts & crafts, and dramatic play. A hammock swing was observed hanging from the ceiling. A conversation was had with administrator regarding the placement of this swing, and how it was too close to a beam. Administrator agreed and stated that the swing would be removed. The beam by the hammock swing needs repair – some places were down to the Gyprock. The areas around the wall shape cutouts also require some touch ups. Administrator stated that these are problem areas, and that even when repaired, they quickly have issues. Administrator stated that they will investigate better options, to fix these areas. Smaller room - requires more defined learning / play centres. A conversation was had with educator, and educator already has some ideas in mind, to make their space more inviting and better defined. Dirt and grime was observed on the windowsills. Windowsills to be cleaned. Parent Board was observed and all required documents were posted. A reminder that only the most recent Renewal Inspection and Monitoring Inspection reports need to be posted. All previous inspection reports can be filed.
