General Comments
<p>The Quality Assurance Monitor is on site for a monitoring inspection. The ratio is respected at the time of the visit.</p> <p>The following elements were verified during the inspection:</p> <ul style="list-style-type: none"> <li>-Designation requirements</li> <li>- Daily activities</li> <li>-Storage for children's personal belongings</li> <li>- child record files and signed consents</li> </ul> <p>During the inspection the Quality Assurance Monitor was able to observe story time while one group was sleeping. During story time, one group joined another group. At that time, the maximum number of children in a group exceeds the requirement for 2 educators. The educator informs the Quality Assurance Monitor that this is for a special occasion. The Quality Assurance Monitor reminds the administrator that this can't be an everyday practice. The Quality Assurance Monitor had a discussion with the administrator regarding designation requirements. The administrator informs the QAM that educators are working on completing their 10 hours of professional learning before the renewal of their license, the parent committee members are having meetings, and the quality improvement plan is up to date.</p>
