General Comments
<p>Regular monitoring inspection was performed on this date. Licensing staff arrived as children were engaged in indoor play. Four children were in attendance and one parent and one unregistered child were also present, doing a transition visit.</p> <p>Children's files were reviewed and contained all appropriate documentation. Allergies were noted in the files and were posted where children eat their snack and lunch. Incident forms are being completed and signed by parents. Serious incidents are required to be reported to Quality Assurance Monitoring within twenty-four hours of occurring.</p> <p>Operators' daughter has recently moved back home, a file for her was present on site and contained all required documentation.</p> <p>The operator utilizes musical prompts for the children throughout their routine. When it was snack time, a song was played, and children knew it was time to go wash their hands and come sit at the table for their snack. Children were given their snacks from home and displayed that they had established a strong routine within the licensed home.</p> <p>Positive behaviour guidance was observed at all times.</p>
