General Comments

Monitoring Inspection--COVID 19 Recovery Phase

During monitoring inspection today it was noted that the facility has a strict guideline to the cleaning process of the facility. A cleaning crew, consisting of the facilities staff, have a very detailed schedule of cleaning/sanitizing protocol.

The facility has a designated drop off time for the children. Anyone entering after this point must call the number posted on the door to be permitted entrance as the facility is locked. Visitors are screened when they arrive with temperature check, questionnaire and contact information taken. Temperatures are taken again 5 hours after arrival and documented for anyone in the facility.

Children were observed in both inside and outside play. During outside play ,the large play area has been divided and a schedule has been made to indicate which day the areas are used by each group. Outside cleaning of this area was also observed during visit.

Children have lots of opportunity explore with materials in their inside and outside environments.
