General Comments

Children were observed in both inside and outside play.

The Pre-K room has been divided to support bubble groupings in the COVID-19 Recovery Phase document and children on each side have a wide variety of materials to interact and engage with.

The learning environments in each room have children's learning documented and the children appeared happy and content with their educators.

Discussed with program administrator the use of work sheets in the Pre-K room and have emailed the document entitled "The Worksheet Dilemma". This should be shared with all educators at the facility.
