Comments: Deficiency is now compliant			

General Comments
Completed second follow up inspection today. Progress has been noted within the after school rooms with respect to the environment and variety of materials. Some rooms are still lacking in documentation to demonstrate the children's interests and learning. Educators need to be continuously adding to the children's environment as their interests evolve. Discussed with childcare and afterschool coordinators and recommended that educators are provided with additional support to plan and implement programming based on children's interests as this has become a reoccurring concern. The divider within the multipurpose room has not been drawn over the last 2 inspections. This needs to be used to divide the room. This must be corrected immediately.
