General Comments

The Quality Assurance Monitor is on site for a monitoring inspection.

The Quality Assurance Monitor verified these items:

- Ratio and maximum number of children
- Posted in a visible and prominent place in the facility
- Staff files
- Child guidance
- Medications

The Quality Assurance Monitor had a discussion with the administrator regarding the child-to-staff ratio during the children's arrival at the facility after school. The administrator explained that typically, one additional staff member is present to supervise the children at the entrance while another staff member parks the bus. However, today, one staff member was absent. As a result, the staff member driving the bus dropped the children off at the front entrance before parking the bus behind the building. During this time, a staff member from the adjacent classroom supervised the children to ensure appropriate supervision.

The Quality Assurance Monitor observed children actively participating in Tae Kwon Do classes, constructing with magnetic shapes and blocks, and engaging in board games.
