39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies;	39(2)(a)	Aug 28, 2019	Aug 28, 2019
Comments: Lysol spray in the downstairs washroom is kept up high, but also needs to be locked. This was remedied during the inspection.			

General Comments

During my visit, the educators were getting their rooms ready for the fall season. There are a variety of materials and activities for the children and it is evident that the educators put a lot of thought and care into their rooms and how the children will use the spaces. Planning with the curriculum is evident. The educators showed positive child guidance with the children, and I also observed a lot of cooperation and positive communication between the educators. I recommend for licencing.
