General Comments

- Child to staff ratio is respected during renewal inspection.

Discussions with administrator:

- One support worker does not have his CPR training yet. The support worker is planning to complete it no later than June or before if a course becomes available.
- Medications in the locked box should be verified to make sure the expiry date is not passed. If the medication is expired, it should not be administered, and parents should be asked to bring a new one if they wish.
- One educator has 3.5 hours of professional learning. The 10 hours must be completed before April 30th. Proof of completion must be sent to the inspector.

Observations:

- Children were doing free play and had the option of making rainbows with colored tissue papers.
- Children went outside to play and came back to eat lunch.
- They had their nap and children who did not sleep had access to material for calm play.

The facility meets requirements for licensing under the Act and regulations. Recommending licensing for another year.
