### General Comments

- Visit completed at the facility in the morning for a monitoring inspection.
- During the visit ratio was respected.
- Positive child guidance was witnessed during the visit.
- The children's files contain all required documentation. The consent forms are signed in the children's files. 10 out of 22 files were verified during the visit.
- Toxic products, chemical products and cleaning supplies are locked and inaccessible to children.
- The minimum space between rest equipment is at least 46 centimetres. All nap equipment is washable and non-absorbent.
- Observations:  
The children ate their snack that was brought from home. During free play the children played with the cars, dinosaurs, made puzzles, created art and played with the play dough. During free play the educators were discussing with the children at their level. The children did not go outside to play because of the wind chill. Learning stories and children's art is posted throughout the facility.
- Discussion with administrator on first aid training. The next available first aid training in the region is June 2025.
