**General Comments**

The inspector is on site to conduct the renewal inspection.

During the visit, the inspector observed morning indoor free play, children participating in crafts, as well as engaging in activities such as a potato sack race and musical chairs, followed by the lunch period.

Outdoor play was not observed due to rainy weather conditions. A discussion is held with the educator, who confirmed that children typically go outside for at least one hour in the morning and one hour in the afternoon when weather conditions permit.

Positive child guidance is observed, including the educator speaking softly and respectfully to the children.

The ratio is respected throughout the inspection.
