### General Comments

The children arrived around 2:30. They washed their hands and had a snack. After snack, they got ready and went outside.

The space is spacious with different theme rooms such has a lunchroom, a quiet room and an arts and craft room.

There are different materials to meet the children's interest and educational needs such has blocks, books, puzzles, games and art and crafts supplies.

The educators were engaged with the children and were observed providing gentle reminders when needed such has a reminder to wash their hands or use appropriate language.

There is a climbing dome outside that was not inspected due to the snow. Therefore, the protective surfacing will need to be inspected by the Quality Assurance Monitor when weather permits.

The children use the gym on occasion and the gym is well maintained.

Although there are hooks for the children's personal belongings, not all hooks are being utilized. As per regulation each child must have a space with their name for their personal belongings which helps with keeping items separate and reduces the risk of communicable disease. Many children had their items on the floor to reduce the playing in the entrance way, therefore, if the entrance is not used for all children, new hooks with the names of the children should be added elsewhere.

I recommend for renewal.
