General Comments
<p>Licensing Staff arrived at the facility to perform a Monitoring Inspection. Upon arrival, the children were in the process of transitioning from inside the facility to the outdoor play space. Bookbags, attendance records and a First Aid Kit was brought outside.</p> <p>As the children transitioned outside, an extra staff member stayed inside to vacuum and clean. Outside, a variety of materials were available for the children to play with. Blankets were brought outside for the children to lay out on the grass while others were observed using them to build forts. A small group of children sat together on a blanket playing board games and making bracelets. Another group of children were seen playing basketball and baseball. The Educators were well spread out to ensure proper supervision was met while outside. The children lined up to go inside to wash hands before having afternoon snack. Once hands were washed, the children returned outside to eat their snack outside.</p> <p>Only positive child guidance was observed during today's Monitoring Inspection. The Educators were actively engaged with the children throughout the afternoon, playing baseball and board games with them. Today's attendance records were reviewed; all children and staff were signed. In one classroom, the walls are being re-painted. Paint cans were observed on the floor. A conversation was had on site about ensuring the classroom is locked or paint cans are moved to an area that can be locked while the children are present.</p>
