General Comments

Licensing Staff arrived at the facility to perform a Monitoring Inspection. Upon arrival, the children were in the process of waking up from nap time. The Educators were observed gently rubbing the children's back to encourage them to wake up. As the children woke up, they gathered at the tables to have afternoon snack. In one classroom, the infants were seen smiling and laughing as they put different fruit and animal magnets on a cookie tray which was attached to the wall at their level. The Educator sat with the children, encouraging language, "Yes! That's a duck, good job! What does a duck say?".

Once the children had finished eating afternoon snack, sunscreen was applied, water bottles were filled and the children transitioned to the outdoor play area. One Educator brought a speaker and bubble machine for the children to use. Several water tables were also filled for the children to use. A large group of children were observed scooping, pouring and splashing while playing with water. Several large trees, umbrellas and shade sails provide adequate shade in the outdoor play area. Water breaks were offered throughout the afternoon.

Only positive child guidance was observed during today's Monitoring Inspection. The Educators spoke kindly to the children, were attentive to their needs and engaged in their activities. Staff files for new staff members were reviewed and contained all required documents.
