### General Comments

-Visit to the center to complete a monitoring inspection.  
- Ratio was respected during the visit.  
- The indoor space provides a large variety of material for children to explore, create and play. The space is safe, and the material is well maintained.  
-The outdoor space is divided in two, one side is offering sand has surfacing and the other one has pea gravel. Material offered is safe and is appropriate for the children's age, they provided lots of opportunities for the children to play and to be creative.  
-The youngest one was napping during the visit; the preschoolers were into quiet play.  
- I observed that the educator used positive child guidance technique, she was respectful to each child rhythm and is attentive to their needs.
