General Comments

Upon my arrival I was screened and signed in. COVID signage is posted at the entrance. Some of the children were playing outside , while another group was indoors when I arrived. The outdoor group came in, washed their hands and then everyone had lunch. After lunch the children nap. The nap mats were placed around the room well, with adequate spacing between each one.

Ratio exceeded requirements during my visit. I checked staff files and they contained all necessary checks and documentation. The files appeared to be well maintained. All required postings were up during my visit, and fire drills are being conducted regularly. Toxic products are locked up in the closet.

The program appeared to be running smoothly during my visit.
