Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

Licensing staff arrived as children were getting ready to go for a walk to the wooded area behind the school.

Classrooms were clean and bright with a variety of developmentally appropriate materials. Fabric items were temporarily placed in bags at this time as the centre has had cases of lice.

Recent learning stories were posted on the walls within the classroom showing ties to the curriculum and purposely planned programming that was child led and based on the interests of the children.

Transition from outdoor play to quiet time was observed. Children showed that they had a well-established routine as they lined up waiting for their turn in the washroom. Educators used transition games and songs with the children that were waiting. This kept all the children happy and engaged.

Educators were observed offering children a choice in what activity they wanted to participate in while they waited for the lunch.
