General Comments

-Visit at the facility for a monitoring inspection.
-Ratio was respected during the visit.
-Parent board has all the required documents.
-Incident reports are maintained in the child's file and parents are advised of incidents and signs the daily log.
-Monthly emergency evacuation and fire drills are completed.
-Children's blankets and cots are identified and stored separately.
-I observed that the educators are using positive child guidance technique, they show respect to each child rhythm and are attentive to their needs.

Observations:
When arriving at the center children were finishing lunch, the younger children were having nap and others were into quiet play. Some children were exploring with water, others were getting ready on starting a recipe of play-doh.
Different types of documentation are being used at the center, learning stories, ongoing projects, portfolios and white boards. Documentation demonstrates the children's interest and progress through time.
