General Comments
<p>-Visit to the center for an unexpected monitoring inspection</p> <p>-Ratio was respected during the visit</p> <p>-Daily activities into the center shows purposely planned and documented programming that gives children, time, and space for a free choice of play experiences, indoor and outdoor opportunities for physical activity either individually or in a group. Children have opportunities for various forms of literacy and to express creativity and interests, to explore the arts and sciences and to experience accomplishment and success. They have opportunities to problem solve and to develop trusting, respectful and supportive relationships.</p> <p>-An inclusive environment is provided for all children</p> <p>-Children's guidance is done in a respectful and positive way</p> <p>-The outdoor space is well maintained; the doorways are cleaned and provide a safe environment for the children to play and explore.</p> <p>-The educators are aware of the goals set into their quality improvement plan.</p> <p>-All staff are up to date with their professional learning hours</p> <p>Observations: When arriving at the center two groups were coming in from a walk. In the Hallway I could see documentation on an ongoing project with the "grumpy monkey's" book, prompts about books and reading stories for all ages. All groups were getting ready for lunch, they had an Easter lunch with turkey, gravy, potatoes, veggies, stuffing... After their lunch the youngest children, got ready for their nap and the oldest kids went into free play.</p>
