| A Monitoring Inspection was completed this morning. Children were observed inside. Children were observed washing their hands and preparing for breakfast at arrival. Children were given the choice between Rice Krispies or Corn Flakes. After eating, children were observed getting their outdoor clothing on, lining up, and preparing for an outdoor Scavenger Hunt. Educators stated that the children's present interests included apple picking and Halloween. Positive child guidance techniques were observed - educators sitting with and conversing with the children about their Thanksgiving weekend, educators offering cereal choices to the children, and educators preparing the children for transitioning from indoor to outdoor play. |                              |                                   |                   |                  |                     |
