General Comments

A renewal inspection occurred today, July 12, 2024. During the summer months only the school-age children are present at the facility.

The children were observed during morning snack, inside play and outside play in the outdoor area adjacent to the facility.

Children have been participating in outings to the spider park/splash pad, neighborhood walks, QES playground, etc.

The children were observed playing badminton, basketball, hula-hoops in the outside area. Inside they were observed engage in board games, reading, creating art, and hanging with their peers.

There is a wide variety of age-appropriate materials in both the downstairs and upstairs learning environments for the children to interact and engage with.

Educators were observed speaking kindly and having positive interactions with the children in their care during the inspection.
