Comments: Review of Child Files: One child missing a copy of their immunization record. To be added.			

General Comments
Renewal Inspection: A renewal inspection was conducted during the morning and afternoon for the infant and preschool programs. The infants were observed during nap time, snack, and play experiences with their educators. The infants participated in activities such as completing puzzles, listening to music, reading stories, sliding, and playing with cars and trucks. The preschool children were observed participating in a variety of activities, including playing hopscotch, reading with educators, building dinosaur habitats using blocks, grass, and trees, and engaging with tools during play. All children were observed putting on their rain gear and going outdoors to explore and jump in puddles. The outdoor environments contained age-appropriate toys and materials for the children. Licensing staff discussed opportunities to further enhance the outdoor play areas by adding additional materials. The indoor and outdoor environments contained a variety of open-ended materials available for children to use during play. Materials were organized in baskets and on shelves and were accessible to the children. Current documentation of the children's learning and activities was displayed throughout both the indoor and outdoor environments. The following records were reviewed: incident logs, fire drill records, daily attendance records, infant and toddler daily sheets, professional learning hours, a sample of children's files, and all staff files. Handwashing and diaper-changing practices were also observed during the inspection. The following was discussed with the on-site administrator: 1. Two staff members require additional professional learning hours prior to October 31, 2026.

General Comments

2. Relocate the art shelf in Grandpa's Room to ensure materials remain accessible to infants throughout the day.
3. Remove and replace the broken basket used to store children's nap items.
