Order for Compliance	Regulation	Date to be corrected	Date corrected

<p>General Comments</p> <p>Visit today to complete the renewal inspection.</p> <p>The children were enjoying active play in the different interest centers today. They were participating in dramatic play with rescue heroes while constructing webs out of yarn to save them while on a mission! Other children were observed to be interacting while building, drawing and painting. The children were thoroughly engaged in the book that was being read with utmost expression during snack time.</p> <p>The children flowed through the routine of the morning without any difficulty. Transitions were managed through maintaining the children's interests and keeping them on task. Lovely educator/child engagement was observed while educators participated along with the children at their level. The children demonstrated a comfort level with those around them and evidence of relationship building was encouraged.</p> <p>Posted documentation in the room indicates the children's recent experiences and captures their interests. A variety of styles of documentation are being used, such as: graphs, photos, learning stories, art creations and mark-making. Evidence of consistent connections being made to the NB Curriculum Framework with purposefully planned activities based on the interests of the children and the implementation of the learning goals.</p>
