Order for Compliance	Regulation	Date to be corrected	Date corrected

<p>General Comments</p> <p>COVID-19 Recovery phase guidance requirements being followed with regards to screening, cleaning, and documents.</p> <p>The learning environment is set up with a variety of materials for the children to engage with. During today's monitoring inspection children were engaged in block play, painting and art, games, and dramatic play.</p> <p>Children are present throughout the environment which demonstrates how their contributions are valued. For example, the daily routine includes photos of the children, children's print is used to identify learning areas, and children participate in maintaining the cleanliness of the environment by helping their educator sweep after snack.</p> <p>The educators were observed to be active participants with the children, sharing conversation, providing opportunities for the children to help them, and documenting for children on their art work.</p> <p>Discussed with Educators use of books among multiple groups. Books can be "quarantined" for 72 hours before being used by a different group.</p>
