<b>General Comments</b>
<p>During today's monitoring inspection, children had completed a group art project; painting a large box that required a significant amount of clean up afterwards. Children actively participated in the clean up process along with their educators ahead of snack time. During snack children are provided with opportunities to independently open their snack. It is evident that educators have provided support throughout the year that allows children to build their confidence and abilities.</p> <p>Documentation throughout the environment includes learning stories, photos, art work, project work, graphs, and children's print. Documentation is thoughtfully displayed and creates a sense of belonging for children.</p>
