<p>General Comments</p> <p>Renewal Inspection completed today.</p> <p>Children were observed engaged in play throughout the indoor learning environment during today's inspection. Materials are displayed at children's level, making them easily accessible and children were observed to move freely throughout the room as they played. Ahead of snack time, children collaborated together along with their educators to return toys and materials to their places. Opportunities for children to have choice and ownership over their space allows them to value the space as their own and creates a sense of belonging.</p> <p>Educators were observed to actively engage with children in play, listening attentively when they spoke by engaging with them at their level. Documentation posted throughout the environment highlights children recent learning and interests and demonstrates the ways educators value children's ideas, work and experiences.</p>
