<p>General Comments</p> <p>A renewal inspection occurred today. The children were observed participating in outdoor play at the beginning of their day at the program. A wide variety of age-appropriate materials are available in both the indoor and outdoor learning environments for the children to interact and engage with. Children learning is documented and displayed throughout the room for the children to revisit at their leisure. Positive interactions were observed between the educators and the children in their care. Educators were observed down at the level of the children in conversations and learning. Proper handwashing techniques were observed several times during the inspection.</p>
