### General Comments

The children are provided with an abundance of materials in clearly defined interest centres. During monitoring inspection, children enjoyed creating in the art centre, and one created a mask as it had been superhero day at school. They also played an organized game with balls. Their educator is very attentive and engaged in play with the children.

Through changing the environment around, the children discovered new ways to use the small stools. The documentation posted highlights all the ways children have repurposed the stools and activities and games they have created with them. Such a small change has encouraged and further developed children's creativity and imagination!
