General Comments
A renewal inspection occurred today. The children were observed engaged in solitary and cooperative play with their peers. The indoor learning environment is set up with a variety of age-appropriate and open-ended materials for the children to interact and engage with. The educator was observed actively engaged in the children's learning and play and asking open-ended questions to extend the children's learning. The children were eager to share their favorite game "Hoot Owl Hoot" with the Inspector and explain how the game works, to ensure that all the owls get to the nest before the sun rises.
