General Comments
<p>A Monitoring Inspection was conducted this morning. Children were observed inside, preparing for, and during lunch. Those who finished their lunches early, were observed looking at books, playing with cars, and building with blocks. QAM observed, while educators prepared the rooms for nap time (6A, 6B, 7A, 7B, & 8A). Nap cots were observed to be at least 46 cm away from each other, in each room. Several examples of documentation were observed in each room. Age-appropriate toys and activities were observed in each room. Positive child guidance techniques were observed by all educators – educators were observed offering choices, anticipating children's needs, understanding child development, and respecting the children's feelings.</p>
