Comments:      Consent to Administer Medication-On going treatment: *Preschool Room--missing for three children. Discussed with Administrator during inspection.			

General Comments
<p>A renewal inspection occurred today.</p> <p>Discussed with educators in the room that some of the most meaningful conversations occur during snack and lunch time. It is encouraged that the educators sit with the children during these times. It is a great time to learn about their interests and even document those. These opportunities can help enhance the learning environment, based on the interest of the child.</p> <p>The children's learning is documented and displayed throughout the room as well as personal portfolios. After lunch, it was observed educators engaged with the children, on the floor and at the table having conversations and positive interactions.</p> <p>The children participated in outside play during the morning.</p>
