General Comments

Monitoring Inspection - After school program only; preschool program on this license is not currently operating.

Children observed engaged in a variety of activities both indoors and outdoors this afternoon including GaGa ball, basketball, playing in the sandbox, exploring the playground equipment, chess, Lego and open-ended art. The indoor play area is set-up with a variety of materials and invitations that support the children's current interests (chess, art, Lego and sports).

Purposeful planning is evident through planning on a monthly calendar and a newsletter that is sent out to families. QA Monitor discussed adding the calendar, newsletter with photos and other projects to a binder for children to revisit their learning and experiences.

Handwashing routines observed at arrival, after outdoor play and before snack.
Monthly fire drills are documented.
