

Early Learning and Childcare Facility Inspection Report

Type of Inspection:
Monitoring Inspection

Pursuant to section 21 of the *Early Childhood Services Act*, operators of licensed early learning and childcare facilities must post their most recent inspection report in a clearly visible and prominent place in the facility.

Name of operator CAROL MCCLUSKEY	Licence Number 2009280	Inspection Date June 15, 2022
Facility Name Daley Day Care 2		Telephone Number (506) 388-9019
Address 99 Highlandview Road Moncton NB E1A 2L1		
Name of Early Learning and Childcare Licensing Staff Erika Hickey		Position Title Quality Assurance Monitor

Order for Compliance	Regulation	Date to be corrected	Date corrected
25 An operator of a licensed facility shall post in a clearly visible and prominent place on the premises: (e) the name and telephone number of the inspector.	25(e)	Jun 16, 2022	
Comments: The name and the telephone number of the QA Monitor and the Inspector must be posted in a visible and prominent space in the facility.			
39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies;	39(2)(a)	Jun 15, 2022	Jun 15, 2022
Comments: The door to the kitchen was unlocked and accessible. Since the cleaning products are kept in the kitchen unlocked, this door must be locked at all times when not in use. The educator immediately locked the door when she was made aware. Deficiency is now compliant			

<p>General Comments</p> <p>The QA Monitor is on site for a monitoring inspection. During the inspection, the QA Monitor was able to observe during lunch time and during the nap time. Positive child guidance and positive interactions were observed between the children and the educators.</p> <p>A purposely planned activity for father's day was observed during the visit. Meaningful conversations during the activity displayed the educator's engagement.</p> <p>During the inspection, the Quality Assurance Monitor has noticed that there is a pile of fence pieces next to the walkway that is used by the school age children to get to their fenced in play space. Since the QA Monitor has seen nails protruding from several boards, the Quality Assurance Monitor strongly recommends moving them to an area that is not accessible to children.</p> <p>While doing an inspection of the school age children outdoor play area, the QA Monitor has observed that in one of the play bins (used for water play or sand play), the bin was full of dirty stagnant water. Since there has been a significant amount of rain in the past days, the Quality Assurance Monitor recommends that the water be drained to respect Public Health guidelines.</p> <p>While observing the preschool outdoor play space, the Quality Assurance Monitor has noticed that a section of the wooden fence is detached from the other segment of the fence. This has created a gap in the outdoor play</p>

General Comments

area fence. The QA Monitor recommends that the fence be repaired.
