10(1) The number of educators that are required for a group of children of mixed ages receiving services at a full-time or part-time early learning and childcare centre is calculated as follows: (a) by multiplying the number of children of the same age by the corresponding factor set out in Schedule A; and (b) by adding the results obtained under paragraph (a).	10(1)	May 01, 2024	May 01, 2024
Comments: When the Quality Assurance Monitor asked an educator how many children were in her care, she said 8 children; however, when the QAM verified the attendance sheet, 9 children were present in her group. To ensure adequate supervision and to ensure that child-to-staff ratio is maintained, educators must be aware of how many children are in their care at all times. The Quality Assurance Monitor had a discussion with the educator regarding the importance of knowing how many children are in her care at all time. Deficiency is now compliant
