<p>General Comments</p> <p>Children engaged in play throughout facility. Each room set up with a variety of materials for the children to explore. Many positive interactions were observed between the children and educators.</p> <p>Recommend removing the gate in the infant room to allow the children to free flow throughout the environment. The educators have set up the smaller room with wonderful invitations; it would be nice to see the room more accessible to the children.</p> <p>Hand washing routines were observed today.</p> <p>A healthy lunch was served during visit; beef and broccoli.</p>
