General Comments

On the day of my visit I was properly screened and all Covid protocols are being followed. The 3 year old room is very serene and calming, and the 4 year old rooms are well set up for the children's learning. Mallory is making the learning connections to the curriculum and all programs are active and engaged.

The outside play area will need more mulch under the climbers which Jenny is in the process of ordering and what is there needs to be raked back under the climbers. The new swing set will need its manual to demonstrate that it is installed properly otherwise it may need to be anchored differently. The shelf where they stack lunch buckets must be attached to something as it is unstable and could be pulled down. There are a lot of toys outside the fence which need to be picked up. A general clean up outside is needed.
